

POWERBAR 5 ELECTROLYTES

5 Electrolytes. 100% Refreshment.

FLAVOURS

Mango Passionfruit Lemon Tonic
Black Currant Raspberry Pomegranate
Pink Grapefruit

PRODUCT DESCRIPTION

During selected workouts you only want to drink water to avoid the consumption of calories or carbohydrates or to optimise your fat metabolism. However, during exercise you lose electrolytes through sweat, which have many important functions in the body. This is exactly where the PowerBar 5 Electrolytes effervescent tablets come in. They dissolve into a high-quality, calorie-free drink containing the electrolytes which you lose the most through sweat – it's ideal if you exercise, but don't want to consume any calories or sugar.

- > Provides the electrolytes sodium, chloride, potassium, calcium and magnesium
- > Magnesium contributes to normal energy-yielding metabolism
- > 10 tablets make up to 2.5 liters of ready-to-drink beverage, depending on the desired flavor intensity
- > Free from aspartame, preservatives and artificial flavourings
- > Pink Grapefruit and Lemon Tonic: contains 150 mg caffeine per 2 tablets. Caffeine helps to improve concentration.

All PowerBar products are included in the Cologne List[®], and as a result we can offer athletes even more security and trust.

SUGGESTED USAGE

2 tablets / day

For flavours with caffeine: contains caffeine (150 mg/2 tablets). Not recommended for children or pregnant woman.

Dissolve one tablet in approx. 250 ml of water. This food supplement should not be used as a substitute for a varied diet. A balanced diet and a healthy lifestyle are important. Do not exceed the recommended daily intake.

Keep out of reach of young children.
