

POWERBAR ISOACTIVE

3 in 1: Liquid, electrolytes and carbohydrates.

FLAVOURS

- Lemon
- Orange
- Red Fruit

PRODUCT DESCRIPTION

During sport you lose both water and electrolytes through sweat. In order to effectively reabsorb the lost water, the right combination of electrolytes (especially sodium) and carbohydrates is important. Isoactive, PowerBar's isotonic sports drink not only provides you with C2MAX, a scientifically developed carbohydrate mixture of a 2:1 ratio of glucose and fructose sources, but also 5 electrolytes. The isoactive powder thus combines 3 advantages in one product: liquid, electrolytes and carbohydrates. With a refreshing taste it's perfect for your training or other sports activities.

- ☒ **Carbohydrate-electrolyte solutions enhance the absorption of water during physical activity**
- ☒ **C2MAX Dual Source Carb Mix**
- ☒ **Provides the body with the 5 electrolytes sodium, chloride, potassium, calcium and magnesium, which are lost the most through sweat**
- ☒ **Free from artificial flavours and preservatives (according to law)**
- ☒ **Suitable for vegetarians**

All PowerBar products are included in the Cologne List®, and as a result we can offer athletes even more security and trust.

SUGGESTED USAGE

General fluid intake recommendation for activities >60 minutes:

- Drink as required before exercise
- Drink approximately 150 – 200 ml every 15 minutes during exercise

Mixing instructions (1 portion): Mix 33 g (approx. 1 ½ measuring spoon - included) in 500 ml water.

As part of a varied and balanced diet and a healthy lifestyle.
